

T23 Bulk editions are optimized for low cost shipping and are cost-effective for volume fleet management and volume installation cases.

T23 bulk can be ordered with or without the immobilizer accessory and is perfect for vehicle security and fleet tracking*.

*24V custom voltage regulator for heavy vehicles and the cost-effective standard 12V Immobilizer also available. Contact us for more information.

Volume Installation

Fleet Management

Vehicle Security

Buying in bulk is a cost-effective way for volume installation cases or any other instance where you handle the installation for your customer.

Intelligent immobilizer option for vehicle security

As the most useful accessory for vehicle security, the custom T23 Intelligent Immobilizer is included in the T23-FS12 version.

Designed for Tramigo T23, the intelligent immobilizer allows remote ignition or engine disabling via SMS or GPRS and replaces the standard vehicle power cabling offering excellent reliability and quality in 12V immobilizer installations.

The T23-Intelligent immobilizer also supports power cut alarms and includes an input for an external alarm of your choice (S.O.S. button etc...)

Warranty Note: T23-FG and FS12 are designed for 12V systems. Installing T23 to a 24V system without voltage surge protection voids warranty. Custom voltage surge protectors are available for heavy vehicle use - ask your Tramigo dealer for more info.

Shipping Info

T23 bulk versions are shipped without a retail package for maximum cost effectiveness and come in a protective plastic bag.

Add the needed accessories according to your need:

-  **T23-ATB** *The T23 Remote Microphone and Panic Button are not included in T23 bulk editions but may be added using the following order codes. For a complete list of T23 accessories, contact your dedicated Tramigo representative.*
